

MISCARRIAGE SUPPORT TOOL

Helping you on your journey

Tommy's

This tool is for people who have had 1 or more miscarriages as they consider their next pregnancy.

It will:

- tell you your chance of a successful next pregnancy*
- give you information on tests and treatments that you should expect
- let you know about any actions you can take to reduce your risk of future miscarriages.

This clinically validated tool was developed by the **Tommy's National Centre for Miscarriage Research.**

“ The results are really interesting. I wasn't expecting that much detail but it was great and made me quite emotional. This is such valuable information to have. It gives you the knowledge you need. ”

We want everyone, everywhere, to have the easily accessible up-to-date advice and support they need.

Try out the tool for yourself

**Your result will be based on the following factors only: Age, weight (BMI), number of previous miscarriages, number of live births, Polycystic ovarian syndrome (PCOS). If you have any other known miscarriage risk factor this tool may not give you an accurate result.*

If you know people who might find the tool helpful please share it - www.miscarriagetool.tommys.org

We research. We support. We care

This tool has been developed using data from research carried out by The Tommy's National Centre for Miscarriage Research.

Tommy's is a registered charity in England and Wales (1060508) and Scotland (SC039280)
